

## Publication Process

### a) Submission

Please submit your manuscript in MS Word format in accordance with the [Author Guidelines](#) via [BSJMM's website](#) by creating a [user account](#). The review process may take up to five weeks.

### b) Submission Acknowledgement

Upon submission, the author receives a confirmation email. Junk / spam folder may be checked if no email is received (and [journal@bsjmm.com](mailto:journal@bsjmm.com) may be contacted).

### c) Basic Review

The editor checks if the manuscript fits journal's [scope](#). The text is checked then for plagiarism/self-plagiarism.

### d) Peer Review

We use a double-blind system for peer review: both reviewers' and authors' identities remain anonymous. The submitted manuscript will be reviewed by at least two experts: one editorial staff member and one to three external reviewers. The review process may take two to three weeks.

### e) Decision

The acceptance is based on the feedback from the reviewers. If differences of opinion occur among the reviewers, the editor or editorial assistant will weigh all the comments and reach a balanced decision, or a second round of peer review may be initiated.

### f) Notification of the Result of Review

The corresponding author will be notified about the result.

### g) Copyediting

The manuscript goes through copyediting and design processes.

### h) Publication

The authors may have the chance to revise the paper before publication if they wish.
